Summary of My Profile

I am a dedicated full Stack web developer with over **5 years** of professional and freelance experience. Passionate about my work, I thrive in team environments and continuously seek growth in my field. Holding a bachelor's degree in Computer Software Engineering, I possess strong **front-end** and **back-end** development skills. Highly responsible and adaptable, I have successfully tackled challenging problems throughout my career.

Education

Bachelor's Degree in Computer Software Engineering
    Islamic-Azad University   2015 - 2017
Associate Degree in Computer Software Engineering
    Charkhkaar State Technical Institute, Borujerd   2012 - 2014

Work Experience

Most of my professional work has been as a freelancer. However, I also held a managerial position for two years in a software development company.
